

Friends of Mine

Grave Digger

All the time friends of mine
Compliment me
All day long nothing's wrong
Just to please me
What the Hell, let them say
They above me
A two-faced lie can't be true
It all bores me
Friends of mine say I'm fine -
Don't believe them
Friend's of mine, they don't know
My suspicion
Push on in, stand up close
While I'm winning
Get a share, an empty stare -
Thanks, I'm leavin'
Friends of mine
Rule the world
Friends of mine
Ruin the world
But it's true, I don't know
Who's beside me
I look around, see my friends
Do they see me
I can't count on one or two
When I'm lovely
But the rest, their interest:
Big time money
Friends of mine
Take good care
Friends of mine
Better watch out
Watch yourselves
Friends of mine, I don't know
Who's beside me
I look around, see my friends
Do they see me
I can't count on one or two
When I'm lovely

But the rest, their interest:
Big time money
