Metallic Fury

Brocas Helm

Blackness is my music
Dark silver my guitar
Starlight feeds my power
Of flashing metalCrescent moon must find me
Within a smoke of screams
Flames fingering my body
Wind howling through my dreamsI live in metallic fury
It seems I'm in control
For my fingers bring the thunder
To this storm called rock and rollThe songs afire inside me
Atingle with my fears
Will blaze and shriek a silence
That only you can hearBlackness is my music
Dark silver my guitar
Starlight feed my power
Of flashing metal
