

Blue Period Picasso

Peter Bjorn and John

I'm a blue period Picasso stuck on a wall
In the middle of a hall in Barcelona
Trying to figure out how to get down
'Cause this solitude is bringing me down
The paintings around me, they don't understand me
I'm a bit too early, I'm seen as development
Curing adolescence
But I'm not just being blue
'Cause I have fallen, shape and color too
But I miss you, I miss the content
That is the focus, that is what all this school is reading to us
All just a part of what I am
It's just a part of my beating heart, beating for you
So I beg you please, please wrap me up, please take me up
Please hold me close unto your breast
Run down the stairs out in open air
Away from the ladies, the Japanese tourists
Their guards won't notice because I'm so hopeless
Take me wherever you originally came from
You will be famous, seen in the headlines
Though you just kindly stole my heart
(Seen in the headlines)
You just kindly stole my heart
(A world famous artist)
I'm a blue period Picasso stuck on a wall
In the middle of a hall in Barcelona
Trying to figure out how to get down
'Cause this solitude is bringing me down
All just a part of what I am
It's just a part of my beating heart, beating for you
So I beg you please, please wrap me up, please take me up
Please hold me close unto your breast
Run down the stairs out in open air
Away from the ladies, the Japanese tourists
Their guards won't notice 'cause I'm so hopeless
Take me wherever you originally came from
You will be famous, seen in the headlines
Though you just kindly stole my heart
(Seen in the headlines)
You just kindly stole my heart
(A world famous artist)
You just kindly stole my heart
(Seen in the headlines)
You just kindly stole my heart
(A world famous artist)
I beg you please stay with me, please
(Seen in the headlines)
Stay with me please, stay with me
(A world famous artist)
Stay with me
