Advisory - the following lyrics contain explicit language:

Malibu gas station pumps up the nation
A tough cross to bear, oops no underwear Com' on do it, you gotta use it
Atta girl, don't you blow it
Com' on move me, turn me on now
It will make make you feel so good, yeah I took the stage to show you so long ago now
My mind is hazy, just a little crazy Com' on do it, you gotta use it
Atta girl, don't you blow it
Com' on move me, turn me on now
Roll me over, it will make you Everybody down, everybody dark crawling on the ground I can't move faster, my
face is plaster
The breasts are bangin', abdominal master Com' on do it, you gotta use it
Atta girl, don't you blow it
Com' on move me, turn me on now
It will make make you feel so good, yeah Everybody down, everybody dark, crawling on the ground
Movin' in the waves, moving in the sand, bumping on the ground
Grinding in the water, grinding in the water Feel the undertow, feel the undertow
What's yours is mine, what's yours is mine
Feel the undertow, oh Pulling down, pull me down in the undertow
French kiss, French kiss now Malibu gas station on face the nation
California magic, a tan so tragic
