

Hands Are Clever

Alex Clare

Care about no history
I just wanna go and raise a family with you
Raise 'em true, raise 'em properly
I'm built for cover do it built for speed
And I wanna go fast so gimme what I need now
I bet you hear that all the time
I've been watchin' you sitting there
And I wanna pull you near
Words are clever
Hands are better
So let's put them together
Do you want what I got
Cause I need your company
If you doubt a thing that I say
And you're tired of playing games, I'm in
I'm gonna get you those precious things
Like old brand whiskey and chicken wings
See that's a promise I can keep
I like cashmere, I like your sweater
But if you take it off we'll both feel better
You know I'll help you happily
If these lights are low enough
No one's gonna see you blush
Words are clever
Hands are better
So let's put them together
Do you want what I got
Cause I need your company
If you doubt a thing that I say
And you're tired of playing games, I'm in
There's only so much I can say
To convince you
No words that have their place
Not in a bedroom
Said I don't care if you go.
Well, that's a lie, cause I do.
Words are clever
Hands are better
So let's put them together

Do you want what I got
Cause I need your company
If you doubt a thing that I say
And you're tired of playing games, I'm in
Words are clever
Hands are better
So let's put them together
Do you want what I got
Cause I need your company
If you doubt a thing that I say
And you're tired of playing games, I'm in
