All I Want

Maren Ord

So what if you're miles away from me
Well, I can't ponder on you forever
So what if the night is dreary without you
Here to brighten up my skyAll I want is you
Here in my arms, you
In my dreams and you
Here beside me youAll I want is you
Here in my arms, you
In my dreams and you
Here beside me youI figured it'd be a shorter while
Whoa and time would pass quickly, yeah
But it's certainly not the case this time
And I miss you here in my armsAll I want is you
Here in my arms, you
In my dreams and you
Here beside me youAll I want is you
Here in my arms, you
In my dreams and you
Here beside me youAll I want is you, yeah
YouAll I want is you
Here in my arms, you
In my dreams and you
Here beside me youAll I want is you
Here in my arms, you
In my dreams and you
Here beside me youAll I want is you, you, you
All I want is you
