

When We Made Love

Bad Company

Ooh yeah, standin there
A shadow in the hall
Im hopin that it might be you
But it wasnt anyone at all I can still remember
The way things were
If I could only bring you back
Then I wouldnt need to say a word Ooh when we made love
It felt so strong, I remember
We were so much in love
Where did our love go wrong? Ooh remembering
The things we used to say
The memories are drifting by
But the pain is here to stay And it is no illusion
Im a lock without a key
Im only livin half a life
Without you here with me Ooh when we made love
A love that felt so strong, I still remember
We were so deep in love
Ooh, ooh where did our love go wrong? I can feel every touch again
As real as it is crazy
And I kiss every kiss again
So tender they amaze me I live through the end again
Feeling like Im dying
Ooh and then I touch my cheek
Realize Im crying When we made love
Ooh a love so strong and I remember
We were so deep in love
So tell me, where did our love go wrong? Oh yeah when we made love
Ooh when we belong together
Its those nights Im dreaming of
Theyll stay with me, theyll last forever
Ooh when we made love
