When We Made Love

Bad Company

Ooh yeah, standin there
A shadow in the hall
Im hopin that it might be you
But it wasnt anyone at allI can still remember

The way things were

If I could only bring you back

Then I wouldnt need to say a wordOoh when we made love

It felt so strong, I remember

We were so much in love

Where did our love go wrong? Ooh remembering

The things we used to say

The memories are drifting by

But the pain is here to stayAnd it is no illusion

Im a lock without a key

Im only livin half a life

Without you here with meOoh when we made love

A love that felt so strong, I still remember

We were so deep in love

Ooh, ooh where did our love go wrong?I can feel every touch again

As real as it is crazy

And I kiss every kiss again

So tender they amaze meI live through the end again

Feeling like Im dying

Ooh and then I touch my cheek

Realize Im cryingWhen we made love

Ooh a love so strong and I remember

We were so deep in love

So tell me, where did our love go wrong? Oh yeah when we made love

Ooh when we belong together

Its those nights Im dreaming of

Theyll stay with me, theyll last forever

Ooh when we made love
