

# Angel

## Sunroof

I'll keep this short and simple  
I've never been the type to find the right words to say  
But for you, for you it all makes sense I know it's so straightforward  
But I'd do anything to make you mine, mine tonight  
Cause it's you, you're always on my mind And it's cold when the wind blows through my door  
I feel so far from everything I wish that we could be So take my hand, before you disappear again  
You've captured my attention  
But I can't say a word  
It's hard to breathe  
When there's an angel in the room  
So please don't leave me here tonight  
I hope you'll see I've been here all along I've never in my lifetime  
Met a girl as beautiful as you, so take my word  
Cause you, you're everything to me I'd spill my heart for you  
But I forget the words that I've rehearsed to say to you.  
And this love is burning me alive And it's cold when the wind blows through my door  
I feel so far from everything I wish that we could be So take my hand, before you disappear again  
You've captured my attention  
But I can't say a word  
It's hard to breathe  
When there's an angel in the room  
So if you fall in love again  
I hope you'll see I've been here all along And if you stay, I'll never let you down  
I'll keep you in my heart forever  
For what it's worth, you're nothing short of perfect in my eyes  
I want this love to last La da da da da da da da da (6x) And it's cold when the wind blows through my door  
I think this could be everything I wish that we could be So take my hand, before you disappear again  
You've captured my attention  
But I can't say a word  
It's hard to breathe  
When there's an angel in the room  
So please don't leave me here tonight  
I hope you'll see I've been here all along
