

In All Worlds (feat. Robert Smith)

Eat Static

We want it to be as it was
We dream it as now it won't be
And wanted for nothing and never
I forget you, forget me...We want it to be as it was
We dream it as now it won't be
And wanted for nothing and never
I lose you, lose meIt all was yesterday. It's nothing at all.
Tomorrow never is...
There's only now... You. Me. This.It all was yesterday. It's nothing at all.
Tomorrow never is
There's really only now... You. Me. This.
You. Me. This.We want it to be as it was
We dream it as now it won't be
And wanted for nothing and never
I forget you, forget me...We want it to be as it was.
We dream it as now it won't be.
And wanted for nothing and never
I lose you, lose meI wish...
You wish...
We wish...I wish you were here.
You wish I was there.
We wish it was now.
We wish it was now.I wish you were here.
You wish I was there.
We wish it was now.I wish you were here.
You wish I was there.
We wish it was now.I wish you were here.
You wish I was there.
We wish it was now.I wish you were here.
You wish I was there.
We wish it was now.It all was yesterday. It's nothing at all.
Tomorrow never is.
There's only now... You. Me. This.It all was yesterday. It's nothing at all.
Tomorrow never is.
There's really only now... You. Me. This.It all was yesterday. It's nothing at all.
Tomorrow never is.
There's only now... You. Me. This.
You. Me. This.
You. Me. This.

You. Me. This.
