Numb

Sleep

I try to lose my self today
and if this pain will go away
A thousand days I'd try to waste
i feel your side but your'e still ok.RerainI feel you, You dont' feel me
I see you, You dont' see meDuck!, Duck! as we stand back to back
seeing disappear and my eyes fades to Black
I wanna let it out when im Back on the track
Causing you to move and bringing you heart attack
And I feel the pain like a Needle in my Vain now
Hurt myself cause i think I didn't know how
Cut myself and Watch me bleed, I turn out as
I watch bleed!Dont' take away your eyes
Coz i know youre beside me and
I just can hold and say
I wish i'm Numb inside
Coz i dont' want this feeling,
feeling that i can't hideI try to crawl inside of you
And hope this day will go away
I turn away to watch you drown
I'm still right here
try to here a sound(repeat refrain)
