

Love Is The Key

[Rick Springfield](#)

Here is the news to make you feel better, love is the key
Oh what can we lose if our hearts are together-love is the key
Kick out your shoes and get down with it-love is the key
Just let the music take you there, and open your heart to the worldLove is the key, love is the key, so plain to
see, love is the key
Here's what I've found, love really makes the world go 'roundOoh, kick out the blues and let the music take
you-love is the key
How can we lose, its not gonna break you-love is the key
Kick out your shoes and get down with it-love is the key
And sing to the world to listen, listen and open their ears to the musicLove is the key, love is the key, so plain to
see, love is the key
Here's what I've found, love really makes the world go 'roundLove is the key, love is the key
Just let the music take your there and open your heart to the worldLove is the key, love is the key, so plain to
see, love is the key
Here's what I've found, love really makes the world go 'round
