Dregs

3 (Three)

If you feel as a grey sad beetle
Got to crawl in the holes of your town
Cause everybody's starring
Just starring down on youThat's what they always doIf you feel as their only problem
Got to learn not to care, take your time
When everybody's starring
Just starring down on youThat's what they always do
Cause they are jealous of youYou're different and so beautiful
Don't you knowIf you feel as a pale tiny beetle
Got to hide in the shade in the streets
Cause everybody's starring
Just starring down on you
