The Night They Invented Champagne

Seth MacFarlane

The night they invented champagne
It's plain as it could be
They thought of you and meThe night they invented champagne
They absolutely knew
That all we'd wanna doIs fly to the sky on champagne and shout to everyone in sight
That since the world began, a woman and a man
Have never been as happy as we are tonightIt's as plain as it could be
That they thought of you and meAnd they absolutely knew
That all we'd wanna doAnd shout real loud to everyone in sight
That since the world began, a woman and a man
Have never been as happy as we are tonightWe will fly to the sky on champagne
And shout to everyone in sight
That since the world began, a woman and a man
Have never been as happy as we are tonight
