

# The Night They Invented Champagne

Seth MacFarlane

The night they invented champagne  
It's plain as it could be  
They thought of you and meThe night they invented champagne  
They absolutely knew  
That all we'd wanna doIs fly to the sky on champagne and shout to everyone in sight  
That since the world began, a woman and a man  
Have never been as happy as we are tonightIt's as plain as it could be  
That they thought of you and meAnd they absolutely knew  
That all we'd wanna doAnd shout real loud to everyone in sight  
That since the world began, a woman and a man  
Have never been as happy as we are tonightWe will fly to the sky on champagne  
And shout to everyone in sight  
That since the world began, a woman and a man  
Have never been as happy as we are tonight
