

Shapeshifter (feat. Styles of Beyond)

Celldweller

(Styles of Beyond S.O.B. verse 1)

Get ready

Get ready, get set

Get ready, get set, let's roll Ha, get ready, get set, let's roll

Road warrior in a bit of petrol

Red, yellow, hit green, then go, breathe in slow S.O.B

You ain't never seen nothing so rugged at 90

Uh huh, motha'fucka with the cops behind me yo!

The boiler's grinding, keep the cuffs, enjoy your doughnuts sir, you Ain't gonna find me

It's not likely their brains is blown out

You're chasing a ghost with no brakes, slow down

Hundred proof octane, ready to drink bitch

Stop playing, I'm hot man, gimme that pink slip Time's up, the animals crept through

Leave them in the dust with a packet of jet fuel

Too quick, eat 'em up, better for pet food

No brain, slow lane, missing your head screws

Skin and bones let mess with your chrome set

Tricked out, hopping like your cruse in a cold chest

Parked in eagle with a safety pin

Take the backseat, now let the games begin, yeah (Celldweller [S.O.B.] chorus)

[Ha, get ready, get set, let's roll

Road warrior in a bit of petrol

Red, yellow, hit green, then go, breathe in slow] Shape shifter

[Come on man, you can't be real

I'll show you what it is, let the anthem build]

Shape shifter

[Put the pedal to the metal and go] (S.O.B. verse 2)

Tough match, you lost by a hubcap

The Big Boss spray painted on my mud flap

Get a rush, yeah we're calling your cold bluff

Can never get enough

Step in, hold your breath and hang tight

Known for the big dollar bet in the cage fight

You're playing with the sharks, step inside

Everybody on your mark, get set, now let's ride.

That's right, put the pedal to the metal and go

The yellow madellow slicks on sending 'em home

Stick cars in the concrete, gripping the road

So quick, get in the palm trees, look out, whoa

We got car keys hooked to remote controls
Hit a button that'll smoke any whip you own
I told you, I don't want to close your casket
Quit now before you go blowing a gasket(Chorus)(Celldweller verse 3)
Melting, meltdown
While time is shifting
Transist, transform
Yielding, bending (out purposly)
While time is shifting
Two shapes they can't get straight(Chorus)
