

Love Makes Things Happen

Babyface

You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know
Deep in the heart love has many ways
Of touching your emotions, taking control of you
And even in thought love can make you change
There's no way of controlling love when it's part of you
Well you could be a married man with two kids and a good woman
And you could give your heart and soul, I swear it don't mean nothin'
'Cause love can pull you deep into a spell
It will spin your mind around like a carousel, oh
I'm telling you love makes things happen
You never know where it's coming from
You never know who you're gonna love
I'm telling you love makes things happen
You never know what you're gonna do
Whenever true love takes hold of you
There's never a time 'cause love will let you know
Love appears at the worst and even the best of times
Takes over your mind, your heart is not your own
There's no way of controlling love, it controls your life
Well, you could be a faithful girl with a good heart and good intentions
And you could never leave your home, I swear there ain't no preventions
'Cause love can pull you deep into a spell
It will spin your mind around like a carousel, oh
I'm telling you love makes things happen
You never know where it's coming from
You never know who you're gonna love
I'm telling you love makes things happen
You never know what you're gonna do
Whenever true love takes hold of you
There's nothing love can't make you do when love takes hold of you
You can have the purest heart and the finest attitude
But I swear that don't mean nothin' when your heart's under the spell
It will spin your mind around like a carousel
I'm telling you love makes things happen

You never know where it's coming from
You never know who you're gonna love
I'm telling you love makes things happen
You never know what you're gonna do
Whenever true love takes hold of you
I'm telling you love makes things happen
You never know where it's coming from
You never know who you're gonna love
I'm telling you love makes things happen
You never know what you're gonna do
Whenever true love takes hold of you
You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know
You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know
