Happy

Joi Cardwell

Oh yes I wanna be
HappySome people will bring you down
With Their
Words of distraction
Actions for reactions
Turn your smile into a frown
It brings joy to them baby
Theyll make you think youre crazy.But I know better see
Cause I see through the things
They want you-want you to
Believe inBut I know the truth revealed
I learned that the key to life is simplyTo be Happy
HappyWell thats what I believe
In life I choose to be
Aint nothing wrong you see
To wanna be Happy (2x)
HappySometimes problems
Come around
Consequences of projections
Selection and rejection
Turn your smile into a frown
Dont worry bout it baby
Designed to make things
Hazy.Well I got the recipe
The anecdote
You can call it the remedy
The light of truth you see
I learned the key to life is simplyWell thats what I believe
In life you can choose to be
Aint nothing wrong you seeYou have the Right
To be
Happy.
