

Stormy Weather

Early Grey

Verse 1

Sky is grey
Wind blows cold, it makes me shiver
Rainy day
Wakes me up and gives me fever

You're so far
I don't know if I can reach you
But my heart
Tells me that tonight I'll meet you

Bridge 1

It seems like stormy weather calls me to the skies
It feels like we've been lost together you and I

Chorus 1

I'm gonna fly across the sky to get to you
So we could spend some time together
And if you ask me what if wings won't pull me through
I'll say just wish me stormy weather

Verse 2

You're my star
You're everything that I could dream of
But we're apart
So many million miles between us

Same old game
Take a chance or wait forever
Once again
I can't resist the stormy weather

Bridge 2

It seems like stormy weather calls me to the skies
It feels like we were born to never say goodbye

Chorus 1

I'm gonna fly across the sky to get to you
So we could spend some time together
And if you ask me what if wings won't pull me through

I'll say just wish me stormy weather

Chorus 2

I'm gonna fly against the sky to get to you
With only hope - to know you better
And if you ask me what if stars will make me blue
I'll say just wish me stormy weather

Alt. Bridge

Stormy weather! Oh-yeeeah!
It's never too late, it's never too late

Verse 3

Sky is grey
I'm takin' chance, it's now or never
Same old game
I am friends with stormy weather

Bridge 3

It seems like stormy weather calls me to the skies
It feels like now's the time to open up my eyes

Chorus 1

I'm gonna fly across the sky to get to you
So we could spend some time together
And if you ask me what if wings won't pull me through
I'll say just wish me stormy weather

Chorus 3

I gotta fly through endless skies to get to you
I only want to know you better
And if you ask me what if wings won't pull me through
I'll say just wish me
I'll say just wish me
I'll say just wish me stormy weather!

Goodbye!
