

Look Up To the Son

Ghapi

You can say you have had it
Say you have had it all
You've got nothing my friend
Until you give it all
You might think you're rich man
You might think you're a star
You've got nothing buddy if you dont know the lord

You can have it all
You can have it all
Now its open down for ya
Its all so very clear
Now all you have to do
Is look up look up look up

Everything is simple
When you get down on your knees
We all need a savior
Look up look up look up
Look up to the son

You might have your children
And they might have some more
It dont really matter if they dont know the lord

You can have it all
You can have it all
Now its open down for ya
Its all so very clear
Now all you have to do
Is look up look up look up

Everything is simple
When you get down on your knees
We all need a savior
Look up look up look up
Look up to the son

Now its open down for ya
Its all so very clear

Now all you have to do
Is look up look up look up

Everything is simple
When you get down on your knees
We all need a savior
Look up look up look up
Look up to the son

This is my friend Jesus
He's been around so long
I can ask him anything
I look up look up look up
Look up to the son
