

Perfect Gentleman

Fugees

You can have all my time
'Cause I love it when you say I'm
Sexy, soulful, such a perfect gentleman
Swagger's got a feeling me, gentleman
I give her everything she needs
I had a lot of girls tell me before
That they had everything that I was looking for
But there's something about you that I just can't ignore
Could it be your style or is it your smile
Or maybe it's the way you say I'm
Sexy, soulful, such a perfect gentleman
Swagger's got a feeling me, gentleman
I give her everything she needs
You make it so easy to see
How you take such good care of me
You got this player 'bout to fall in L O V E
Could it be your touch that makes me want you so much
Or maybe it's the way you say I'm
Sexy, soulful, such a perfect gentleman
Swagger's got a feeling me, gentleman
I give her everything she needs
You've found the way to get me focused on
Building something real with you
Oh, I can't explain how it got this far
Really like the fact you know I'm
Sexy, soulful, such a perfect gentleman
Swagger's got a feeling me, gentleman
I give her everything she needs
Oh, oh, baby, yeah
You are my superstar, girl
