Like An Angel

Doro Pesch

I've had battles with the devil
and it's left a scar or two
why do I forget my troubles
whenever I'm with youLike an angel
are you an angel
you have saved my heart
and you play your part
like an angel to meYes I met you on my darkest day
when my world turned cold as ice
you lit my cigarette
and you took me away
it felt like paradiseLike an angel
a real angel
drown me in your light
take me through the night
you're an angel
I have fallen
from the dark above
into the arms of love
you're an angel - to me
