## Cymbals Eat Guitars

We got caught in Laramie  
Snowstorm closed down I-80  
We got lushed with strangers at the Spike  
Threw pink brake light out into the night  
Useless diamond  
The vacant city gleams  
Sparkling highways empty 'cept for me  
Stillborn Summer, a cold reality  
Warm waves, plastic sunshine fills me  
All alone with my strip mall memories  
Chasing the chills I felt when I was eighteen  
Both in need of rescue  
So who saves whom?  
In your car had "I Guess We're Done" duels  
I'll do the Kev and you can do the Charles  
We were both in need of rescue  
So who saved whom? Derealization  
Half a decade on  
A house show in Caldwell  
Forward 13 months  
The innocence ended when I got the call  
Your street's just a place it has no memory at all  
Derealization  
Half a decade on  
A house show in Caldwell  
Forward 13 months  
The innocence ended when I got the call  
Your street's just a place it has no memory at all
