

Til When Will You Love Me

Lei Ting

Don't know since when did i forget
Accustomed to some greeting
Listen to the old love song for the last time
With quivering lips gently

Time is like boundless sea
We are powerless to swim
Longing around, anxious to the right and left
Who's waves the sleeves
You will love me until when?
You will accompany me to which junction?
I don't know what to use what reason again
So you can stay with me forever
You will love me until when?
You will be waiting until the bridge where?
I just have a remaining kindly beans
Please take it, and don't let the wind take it away

Time is like boundless sea
We are powerless to swim
Longing around, anxious to the right and left
Who's waves the sleeves
You will love me until when?
You will accompany me to which junction?
I don't know what to use what reason again
So you can stay with me forever
You will love me until when?
You will be waiting until the bridge where?
I just have a remaining kindly beans
Please take it, and don't let the wind take it away

You will love me until when?
You will accompany me to which junction?
I don't know what to use what reason again
So you can stay with me forever
You will love me until when?
You will be waiting until the bridge where?
I just have a remaining kindly beans
Please take it, and don't let the wind take it away

Please take it, and don't let the wind take it away
