Same Difference

John Martyn

No difference here
Feel no difference here inside
No difference here
Feel no difference here insideIf by some chance you say goodbye to me
Rest assured, you'll always be loved
Better loved you never could be
And if, by some chance, I say goodbye to you
Call my bluff, I'm never that tough
That's a thing I never could doOne love in my life is enough for me
One love in this heart of mine
One love in my life is enough for me
One love in this life of mineFeel no difference here
Feel no difference here inside
No difference hereBut if some tiny crack should ever start to show
Never you fear, I will always be here
First man to let you know
If some tiny difference should rear its head and shine
Don't you care, I'll be there
First man to call you mineOne love in my life is enough for me
One love in this heart of mine
One love in my life is enough for me
One love in this life of mineOne love in my life is enough for me
One love in this life of mine
One love in my life is enough for me
One love of my lifeOne love in my life is enough for me
(One love)
One love in this life of mine
(One love)
One love in my life is enough for me
(One love of my life)
One love in this life of mineOne love of my life
One love of my life
One love of my lifeOne love of my life
One love
One loveOne love in my life is enough for me
(One love)
One love in my life
(One love of my life)
One love in my life is enough for me

(One love, one love)
One love of my lifeOne love in my life is enough for me
One love in my life
One love in my life is enough for me
(One life)
One love of my life
(One life)One love in my life is enough for me
(One life)
One love in my life
One love in my life is enough for me
One love of my life
