Becky

Be Your Own Pet

BFF and you're such a good friend
But I knew it couldn't last 'til summer's end
You signed my yearbook and that was pretty rad
And now I'm getting sick of you and it's just too badI heard you talked a lot of shit about me
To your new best friendDoesn't matter anyway
'Cause I've found a brand new friend, okay
Me and her, we'll kick your ass
We'll wait with knives after classBut you know I gotta say
I really loved going to your slumber party
It's too bad you got so lame
You told my secrets and it caused me a lot of painI heard you talked a lot of shit about me
To your new best friendDoesn't matter anyway
'Cause I've found a brand new friend, okay
Me and her, we'll kick your ass
We'll wait with knives after classNow give me back all the clothes you borrowed
Don't give me bullshit, bring 'em to school tomorrow
I can't believe I told you all about my secret crush
I wish I could take it back now that you broke my trustIt was great how you made me a friendship bracelet
But I didn't know you made one for Becky's face lift
You now know everyone hates me a whole bunch
Just because I made you cry a little bit at lunchBut I don't feel bad
'Cause they don't know what we hadDoesn't matter anyway
'Cause I've found a brand new friend, okay
Me and her, we'll kick your ass
We'll wait with knives after classWe don't like Becky anymore
We don't like Becky anymore
We don't like Becky anymore
We don't like Becky anymoreNow I'm going to juvy for teenage homicide
It'll would've been cool if you stayed by my side
Then you'd know that you wouldn't have had to die
And now every single night I cryIf only what you wrote in my yearbook was true
Then I wouldn't be stuck in fucking cell block 2
But I don't regret what I've done
'Cause in the end it was funDoesn't matter anyway
'Cause I've found a brand new friend, okay
Me and her, we'll kick your ass
We'll wait with knives after classDoesn't matter anyway
'Cause I've found a brand new friend, okay
Me and her, we'll kick your ass

We'll wait with knives after class
