## The Nerve Agents

The Garden State [x4]  
It rains there every time...  
Except once  
Though the heart of  
all hardcore is right there at your door  
New Jersey  
Never fade out  
You've always been there  
What gives?  
I can't escape you  
I really must thank you for all of this  
Thank you [x1000]
