The Song You Sing

Creed

Woke up and had a face to face
Guess my reflection had a lot to say
Why let my worries steal my days
It just brings me down
Does the song you sing have enough meaning?
Inspire us to sing along
Does the song you sing keep echoing?
Inspire us to sing the song you sing
What's wrong with the world today
Tell me what's all the talk about
Lately I've been in a real bad place
Can't let the world bring me down
Does the song you sing have enough meaning?
Inspire us to sing along
Does the song you sing keep echoing?
Inspire us to sing the song you sing
I hope the words I wrote
Keep calling out, keep calling out
Forever let them sing
That song you sing, that song you sing
I hope the words I wrote
Keep calling out, keep calling out
Forever let them ring
Hear them echoing, hear them echoing
Does the song you sing have enough meaning?
Inspire us to sing along
Does the song you sing keep echoing?
Inspire us to sing the song you sing
The song you sing, the song you sing
It's the song you sing, it's the life you bring
That's why I sing the song you sing
