# Forever Isn't Long Enough

## Tracker Thornton

Be aware
Of everything that's fake
Watch your step
With every move you make
If you're kept in silence
Let there still be something left to say
And if you are in trouble
Let there be help coming up your way

Forever, forever, isn't long enough
Forever, forever, isn't long enough

Take good care
Of everything you do
Stay alive
No future without you
If nights of darkness hunt you
Let there still be some way to the light
And if the devil finds you
Let there be an angel by your side

Forever, forever, isn't long enough
Forever, forever, isn't long enough

(Tracker Thornton)
