Marathon

The Vehicle Birth

I'm just built like this [Incomprehensible]
Love-makin' is a zone, the rhythm, the music
The movement, wet, devotion
Are you focussed? Are you?
I can help you last forever
[Incomprehensible], connect
She says things to me like
"Keep me coming"
As the seconds turn to minutes
As the minutes turn to hours
As the sound of love is hollered
Time just keeps elapsing
And I just keep climaxing
With sweaty palms to say the least
You know just what to do to curl my toes
When she blows, there I go
I lose all control and there's no need for batteries
Once you turned on your light
Marathon, marathon, marathon, marathon, marathon
Your love-making's like a marathon
Marathon, marathon, marathon, marathon, on and on and on
Your love-making's like a marathon
Roll me something, baby
Let me light you
I respond to her femininity
The sweet taste of heaven
I taste when I kiss you
Suga, you fulfill the passion
You make all my daydreams come true
I'm caught in your seduction
You make me lust for more and more
When it rains, girl, it pours
From the vibe to the core
Now feel your hands stretch my back
As you play in my lap
Let it go, let it go, let it go, let it go
Like a marathon, baby, let it go, let it go
Marathon, marathon, marathon, marathon, marathon
Your love-making's like a marathon

Marathon, marathon, marathon, marathon, on and on and on
Your love-making's like a marathon
Marathon, a marathon
Marathon, a marathon
Marathon, a marathon
Marathon, a marathon
Marathon, marathon, marathon, marathon, marathon
Your love-making's like a marathon
Marathon, marathon, marathon, marathon, on and on and on
Your love-making's like a marathon
