

# Crazy World

## Ladyhawke

Sick of all that we have to be in this life  
Gimme all that you have, gimme what you like  
Waiting here for a fool to begin his life  
And you, you try to remember  
Flipping coins from a tin till he feels the night  
And you, you try to remember We're part of a, we're part of a  
We're part of a crazy world  
We're part of a, we're part of a  
We're part of a crazy world We're part of a, we're part of a  
We're part of a crazy world  
We're part of a, we're part of a  
We're part of a crazy world Gimme time to reflect, gimme all we know  
Holding hands on the street where the lights are low  
You and me wanting more but we'll never know  
And you, you try to remember  
What it means in a world where it's never slow  
And you, you try to remember We're part of a, we're part of a  
We're part of a crazy world  
We're part of a, we're part of a  
We're part of a crazy world We're part of a, we're part of a  
We're part of a crazy world  
We're part of a, we're part of a  
We're part of a crazy world Gimme all that you have, gimme what you like  
Waiting here for a fool to begin his life  
And you, you try to remember  
Flipping coins from a tin till he feels the night  
And you, you try to remember We're part of a, we're part of a  
We're part of a crazy world  
We're part of a, we're part of a  
We're part of a crazy world We're part of a, we're part of a  
We're part of a crazy world
