

Rise

The Upset Victory

Rise up! We are surrounded
Got our backs against the wall
This ground was hollowed
Now it's just cushion for the fall
Rise up like a phoenix from the ashes
We need to rise up like a phoenix from the ashes
Come on Hey! Stand up and fight with me tonight
Can't do this on my own
Hey! Been putting on for far too long
Can't do this on my own I'll be your beacon
Drug out in the streets and left to burn
Let's not be shy now
Go give them just what they deserve
Rise up like a phoenix from the ashes
We need to rise up like a phoenix from the ashes
Come on Hey! Stand up and fight with me tonight
Can't do this on my own
Hey! Been putting on for far too long
Can't do this on my own I'm not scared to die, but I can't do this on my own
Spare us your excuses
Show us no mercy
Spare us your excuses
Show us no mercy
No mercy Hey! Stand up and fight with me tonight
Can't do this on my own
Hey! Been putting on for far too long
Can't do this on my own
