Supernatural

Sugababes

Love comes and love goes
And, who knows what life holds
Love is as love does so
Don't ask for too much
Don't sit back and let your heart just break
'cause what you give is what you take
Love is as love was before so u knowAll the universe is looking out for the love
But you gotta first, find yourself to love someone elseSupernatural, international, unstoppable
That's just how it goes
It's practical, it's actual
It's a fact that everybody wanna be loved
Supernatural, international, unstoppable
That's just how it goes
It's practical, it's actual
It's a fact that everybody wanna be loved(Hey)
Everybody, everybody wanna be loved
(Oh yeah)Love stays and love leaves
And love can get ugly
I trust you, you trust me
And love can be trust free
Don't sit back and let it pass you by
'cause you don't miss the water till the well is dry
So love me, I'll love you
Before we do, you wanna know...All the universe is looking out for the love
But you gotta first, find yourself to love someone elseSupernatural (oh oh oh) international, unstoppable
