

Taking The Music Back

Anthrax

Your lies that took me where I've been
Your lies don't make me who I am
Your lies that left me scarred
And so fucking hardYour lies that burn me deep inside
Your lies that helped to bleed me dry
Left on your own
Because your cover's blownI am taking the music back
I am taking the music back
I am taking the music back
I am taking back, yeahAgainst your will I'm not a slave
Against the deal and you get paid
I won't throw you a rope
You prove that shit can't floatAgainst it, you're the enemy
Against it, your philosophy
Shit thrown against the wall
You'll eat it allI am taking the music back
I am taking the music back
I am taking the music back
I am taking backI am taking the music back
I am taking the music back
I am taking the music back
I am taking backI am taking the music back
I am taking the music back
I am taking the music back
I am taking it
