

Don't Ever Tell Locke What He Can't Do

Moneen

Ah, I took everything you said
Ah, harder than we should
Are we wanting more than to try to sell you out?
Are you one? You one? You one? He's trying to say we can't
Yes I can
You can't have all that you want
Yes I can
And when your wrong I'm still not right Sign it on
And throw it back against the wall
You asked me how
What if I resent you now?
What if I can't trust in anything you say? You trying to say we can't?
Yes I can
You can't have all that you want
Yes I can
And when your wrong I'm still not right Let's start again, replace it
Let's start again, erase it
So move along and face it You trying to say we can't?
Yes I can
You can't have all that you want
Yes I can
And when your wrong I'm still not right
Yes I can
