These Four Walls

Catherine Wheel

I'm gonna die in these four walls
I had enough and I tried it all
I'll watch the daybreak and I'll see the night fall
In these for walls
Show me trouble I'll take him down
I drew a line on this patch of ground
And everything's safe and everything's sound
In these four walls, in these four walls
Up on a rooftop I can remember
Borders I had to break
And now I can see I had this life
To make, to make
And I'm gonna miss your southern drawl
A baby's first steps in an empty hall
And every little thing I can ever recall
In these four walls, in these four walls
Up on a rooftop, feel like you're flying
Thinking your heart could break
Oh, can't you see we have this love
To make, to make
Oh, I'm gonna die in these four walls
I had enough and I tried it all
I'll watch the daybreak and I'll see the night fall
In these four walls, in these four walls
In these four walls
