

# Whatever You Want

[Taylor Dayne](#)

Whatever you want me to do, I will do it for you  
Whatever you want me to be, I will be what you need  
Because it's vibes that I feel whenever you're really near  
I'm feeling sensual, I can't deny in myself  
I'm wanting you and no one else, you've got me raptured Uh, huh, 'cause time takes and love heals  
Wherever we are I know that it's real  
Whatever you want me to do, I will do it for you  
Whatever you want me to be, yeah, yeah, I will be what you need Because it's love that I feel, whenever you're  
really near  
I'm feeling sensual, but now I know, I know that it's real  
Hey, hey, hey, hey, oh, oh, oh, yeah I know you've got flames in your heart, that tore you apart  
I know you've been safe on your own, yeah  
But together we're strong because it's love that I feel  
Whenever you're holding me  
I'm feeling passionate, I can't deny in myself  
I'm wanting you and no one else, you got the power Uh, huh, 'cause love takes and time steals  
And deep in my heart I know that it's real  
Whatever you want me to do, I will do it for you  
Whatever you want me to be, I will be everything Because it's love that I feel, whenever you're next to me  
I'm feeling sensual and now I know, I know that it's real, yeah  
Whatever you want me to do, whatever you want me to do, oh 'Cause time takes and love heals  
Wherever we are I know that it's real  
I know, I know that it's real, yeah  
Whatever you want me to do, I will it for you  
Whatever you want me to be, yeah I will be everything whatever you want me to do  
I will it for you whatever you want me to be  
What you need, whatever you want me to do  
Baby, baby, I will do if for you, I'm feeling sensual
