

Bang the Drum

INXS

Hey, recognize what you want when it speaks to you

I know there's nothing so rare as a dream come true

We've all seen both sides of the same face, called them friend

Oh baby, grab a noose 'cause we're looking for a different endWell if tomorrow comes and you feel undone

Don't let your fears mess number one

Better bang that drum, bang that drumHey, you know what you want and I want you too, yeah

Yeah, yeah, like a man on board with a ship of fools

I could burn up, I could burn up in an endless sky

Gotta stop, stop, stop, the fear you're faking, if you think I'm fakingWell if tomorrow comes and you feel
undone

Don't let your fears mess number one

Better bang that drum, yeah, bang that drumBang that drum

Live by the rules of rythm, live by the rules of rythmBreak it down

Bang the drum, bang the drum

Bang the drum, give me

Give me, give me your soul

Give me your soul

Give me, gotta kick that can, yeahI'm burnin', I'm burnin', yeah, burnin' like a star turned on

Give protection to the weak from the strongWell if tomorrow comes and you feel undone

Don't let your fears mess number one

Better bang that drum, yeah, bang that drumHey, if tomorrow comes and you feel undone

Don't let your fears mess number one

Better bang that drum, yeah, bang that drumBreak it down

Bang the drum, bang the drum

Bang the drum, bang the drum

Bang the drum, bang the drum

Bang the drum, bang the drumIf tomorrow comes and you feel undone

Don't let your fears mess around with number one

Better bang that drum, yeah, gotta bang that drum, hey
