

Burn

Smash Into Pieces

I want you to see, I want you to feel
Everything you have been doing to me
I want it to hurt, I want you to learn
What it means to twist and burn
I want you to burn You think you are safe and sound
We have just begun
Won't stop til you're in the ground
I will have my revenge I want you to see, I want you to feel
Everything you have been doing to me
I want it to hurt, I want you to learn
What it means to twist and turn
I want you to burn
I want you to burn
I want you to burn
I want you to burn
Too late to apologise
To remove my scars
You can run but you cannot hide
I will seek, I will find I want you to see, I want you to feel
Everything you have been doing to me
I want it to hurt, I want you to learn
What it means to twist and turn
I want you to burn
I want you to burn
I want you to burn
I want you to burn You took your time
You made your move
Behind my back, attack
What goes around comes around
What comes around, burns!
Your life has no future
Talk won't get you out of this
Should have been more careful
Playing with fire I want you to see, I want you to feel
Everything you have been doing to me
I want it to hurt, I want you to learn
What it means to twist and turn
I want you to burn
I want you to burn

I want you to burn

I want you to burn
