Somebody Else

Charlee Drew

Maybe we should do this somewhere else
Anywhere your No.5 aint all I smell
When you're close to me it's just too tough to tell
If I'm really losing you or just myself
It seems to me that I've been watching while you slip away
The space between the sheets been growing on us every day
Just know I'm sorry and there's nothing you could change
There's something I've just gotta sayI'll stand right here and listen while you yell
'Cos I can't deny it's all been 'bout myself
I've been lying down, thinking how I'd lie right now
When the moment when this situation came around
But here's the truth girl there's somebody elseI tried to push it to the side but I'm too weak
She's been playing on my mind, you hear me
Say her name, In my sleep.
Some many times I know you thought that she was in the way
We'd never even spoken then but I was blown away
I know it's hard but girl she's not the one to blame
I'm the one thats guilty of the chaseI'll stand right here and listen while you yell
'Cos I can't deny it's all been 'bout myself
I've been lying down, thinking how I'd lie right now
When the moment when this situation came around
But here's the truth girl there's somebody elseNo there aint a possibility
The final words you said to me
Could hit my any harder
But I'll take every obscenity
'Cos you've taken this to mean
together every moment we
ever spent, was just a wasted effort broken dream
girl as much as It hurts me to admit the truth
I'd just rather be with her than youI'll stand right here and listen while you yell
'Cos I can't deny it's all been 'bout myself
I've been lying down, thinking how I'd lie right now
When the moment when this situation came around
But here's the truth girl there's somebody else
