

# Fire In The Hole

## Van Halen

In a word to the wisdom tooth  
To tell, or not, the truth, yeah  
So open up and say, "Ahh", men  
Well, rinse cup, and spit again  
Forked tongue in double speak  
Pretty soon you just might spring a leak  
Inhale before you begin  
Your iron lung's a bag of wind  
There's a fire in the hole  
Fire in the hole  
There's a fire in the hole  
Hey hey hey, hey hey, fire  
Sweet 'n' sour, filiblisters  
Faucet pouring, fresh 'n' bitter  
Come on, smile and say, "Cheese"  
On a count of three  
Ya got a mindful of decavities  
Hey, chew your words lest you choke  
You better watch your mouth  
Wash it out with soap, yeah  
Tongue tied in a tangled web

Your bile inside better left unsaid  
There's a fire in the hole  
Fire in the hole, hey hey hey, hey hey  
Fire in the hole, hey hey hey, hey hey  
Fire, ahh, shoot!  
Hey hey, yeah  
Huh, yeah  
Hey hey, yeah  
Hey hey hey, hey hey  
There's a fire in the hole  
Fire in the hole, hey hey hey, hey hey  
There's a fire in the hole, hey hey hey, hey hey  
Fire in the hole, hey hey hey, hey hey  
There's a fire, fire, fire  
A fire  
Rudder of ship which sets the course  
Does not the bit bridle the horse?

Great is the forest set by a small flame  
Like a tongue on fire no one can tame
