

Just Like Zeus

Jenny and Johnny

Up on Mount Olympus
Living on a pile of trash
With all the lunatics
How they worship you What are you going to do
With the back of that ticket?
That's my number but
I'll call you There's nothing less I'd rather do You've been sniffing up that mercury
From a broken thermometer
Like a cloud gatherer
Just like Zeus Out at the car show
She does ??
Like seeing a cold sore
In a kissing booth There's nothing less I'd rather do
There's nothing less I'd rather do
There's nothing less I'd rather
There's nothing less I'd rather
There's nothing less I'd rather do And I, I live with the shame
But you, you taking that blame There's nothing less I'd rather do Living on Milk Duds
And therapeutic mud
Ninety days at promises
With no booze Outside Silver Lake
I am the biggest fake
Like the Mona Lisa
At the Louvre There's nothing less I'd rather do
There's nothing less I'd rather do
Than taking a real quick picture with you
There's nothing less I'd rather do And I, I live with the pain
But you, you're sending over champagne There's nothing less I'd rather do
