

# Blue Bird

## Kirakira Quartet

As I swim mermaids dance with me  
As I drown they romance with me  
They sing sweet little harmonies  
Louder and louder until I can't breathHey blue bird on my shoulder  
Can you carry me over?I talked to blue bird, she said why walk when you can fly?  
She told me, baby life tastes better when you're high  
I said hey blue bird can you take me for a ride  
Leave me on a cloud, ill live with blue birds in the skyAs I walk I can feel the heat  
As it burns I can smell the sweet  
Piece by piece I am yours to feast  
All this pain is seducing meHey blue bird on my shoulder  
Can you carry me over?I talked to blue bird, she said why walk when you can fly?  
She told me, baby life tastes better when you're high  
I said hey blue bird can you take me for a ride  
Leave me on a cloud, ill live with blue birds in the sky
