

# Goodbye (Wolfkind Remix)

Feder

Is someone listening? Okay  
Let me tell you the story of that guy First he loved  
Then he promised  
He was losing control Crazy night  
Internet sex Now living  
My own life  
Are you out of my mind  
Wasting too much time  
And I leave you from behind And you're unaware  
Are you thinking of me, when you fuck her?  
Does she know that you're supposed to love me?  
To the day  
Almost  
Kill me Now living  
My own life  
Are you out of my mind  
Wasting too much time  
And I leave you from behind Now living  
My own life Are you out of my mind  
Wasting too much time  
And I leave you from behind  
Living  
My own life  
You're out of my mind  
Wasting too much time  
And I leave you from behind
