

# Wait for the Sun

PFR

Love will always stay  
Somewhere in your heart  
And hope will never fade  
Though at times it will be hard  
But lift your head anyway  
God's Son is returning  
He's bringing brighter days[Chorus]  
So wait for the Sun to come out again  
Storms always come but they blow away with the wind  
So wait for the Son is coming again  
Winds of trial blow hard  
So we've got to hang on  
Hang on to Him Where's the joy you've known  
It seems you can't remember  
All the fire in your life  
Has turned to cold December  
But lift your head anyhow  
He's won greater battles before  
What makes you think He won't fight now[Chorus:Repeat x2]
