

# Gideon

## Trouble

Looking at the world today, what do you see?  
People like you and I waiting to be free  
Do we even have a chance? It is hard to tell  
With all this fighting and killing this could be hell Have you been discouraged  
Hard times bringing you down?  
Fight on, I know you can make it  
Prove it to yourself Working hard just to survive  
Can it be done?  
We're only trying to make life better  
For our son All I want is to serve my purpose  
Can't get past today  
Will there always be someone  
Trying to take it away Have you been discouraged  
Hard times bringing you down?  
Fight on, I know you can make it  
Prove it to yourself Listen now to what I say to all that have dared  
You got to change your ways I know that you're scared  
Fear not, the Lord is with us He can save us all  
My hope lies in his hands please hear His call Have you been discouraged  
Hard times bringing you down?  
Fight on, I know you can make it  
Prove it to yourself The spirit of Gideon lives in the hearts  
Of any determined band that refuses to be discouraged  
By hopeless odds and fights on to victory  
By the sword of the Lord and of Gideon
