

Wishing Well

Porno for Pyros

I can tell when I'm dead inside
I stop thinking of God
I'm living in hell I stop wishing, wishing
I stop wishing
Wishing you well I had a friend
I knew him well
His voice was so blue
His eyes were so calm He stopped wishing
Now I'm wishing
He stopped wishing
I'm wishing him well I'm wishing you well
I'm wishing you well
I'm wishing you well
I'm wishing you well I'm wishing you well
I'm wishing you well
I'm wishing you well
I'm wishing you well I had a dream last night
I can heal people
I heal myself just by wishing
By wishing, just by wishing I'm wishing you well
I'm wishing you well
And I'm wishing you well
I'm wishing you well It take sirens sometimes
To make me glad
Hear sirens sometimes
I'm just glad I'm not inside
