

# We Don't Love Here Anymore

Tracy Lawrence

Every night when I come home  
This old house it's always dark  
You don't wait up like you used to  
Like you did at the start  
And I can feel the changes  
As I'm walking through the door  
We still live in the same house  
But we don't love here anymore  
We still share the same old bed  
But now our dreams seem worlds apart  
We don't touch the way we used to  
And it's breaking my heart  
We're turning into strangers ties  
That bind are frayed and worn

We still live in the same house  
But we don't love here anymore  
And I would do anything  
For what we had before  
We still live in the same house  
But we don't love here anymore  
Oh and I would do anything  
For what we had before  
We still live in the same house  
We still live in the same house  
We still live in the same old house  
But we don't love here anymore
