

# Cheat Away

## Treble Charger

Say what you want about it, it isn't true  
Just concerning me and you  
Is it any wonder anyway  
And nothing else to do?  
If you see it any other way  
First you can go  
Later you can fake it so why make it any harder?  
Just tell them  
Everything you know  
Is it wise to make amends  
No surprise  
You're among friends  
So say goodbye  
And find a place  
You'll keep hidden somewhere  
Cold and deep  
Don't disappoint us all  
And cheat away your time  
Why does everyone ignore it  
It won't go away  
It'll get you through the day  
Doesn't anybody know by now  
There's never anything to say  
Is it wise to make amends  
No surprise  
You're among friends  
So say goodbye  
And find a place  
You'll keep hidden somewhere  
Cold and deep  
Don't disappoint us all  
And weep for old times  
Save a cry, you'll need it in a week  
And every holiday retreat  
Don't disappoint us all  
And cheat away your time  
I'm looking down the tunnel  
But I can't see the light
