

# Lysergic Communion

## Warhorse

[Music-Hubbard, Orne/Lyrics-Hubbard]Alter of dawn, bury me in light  
Crimson eclipse, blood and body ignite  
Lysergic communion, thy cup runneth overAscend through the trees as the landscape fades  
Disciple of the sun, the red horizon cascades  
Burning away the masks meant to hide  
Writhing becoming the demon insideThe battel rages for the church of the sun  
Victorious, I dethrone the chosen one
